

26 August 2016

Dear Resident/business owner

### **Yaloak South Wind Farm**

Pacific Hydro invites you to a pop-up information session at Mount Wallace Public Hall Reserve, Mount Wallace Hall Road, from 5 – 7pm on Thursday 8 September 2016.

The pop-up information session will provide an opportunity to meet Pacific Hydro staff and get information regarding upcoming construction works relating to the Yaloak South Wind Farm Project.

Over the coming months, construction activities will include:

- Mobilisation to site and installation of temporary facilities and sheds for contractors;
- Road upgrades;
- Erection of new meteorological monitoring masts;
- Construction of a site entrance on Glenmore Road; and
- Construction of an on-site concrete batching plant.

The pop-up information session will also be an opportunity for local businesses to register their capabilities in providing a range of goods and services. We would also like to hear from members of the community who may be interested in participating in a Community Partnership Group and from people who live within 3km of a wind turbine generator associated with the Yaloak South Wind Farm Project who would like to be considered for our Visual Screening Program.

Light refreshments will be provided and we look forward to meeting you.

Yours sincerely

Krista Kim  
Engagement and External Affairs Manager  
Pacific Hydro Australia
