

Community information session Proposed Clarke Creek Solar Farm

Pacific Hydro invites you to a project information session at Clarke Creek State School on Tuesday 27 February from 6:30pm to 7:30pm.

Our team is keen to hear from members of the Clarke Creek community and to provide more information about the proposed solar farm.

The team will be on hand to answer questions, capture your sentiments and better understand any areas of concern before we submit our development approval application to Isaac Regional Council.

For more information about this event or the project, contact us at enquiries@pacifichydro.com.au or on 1800 730 734.
